

Delivery Services

Stone Leaf will get the best price possible that also fits customer delivery needs and timing. Stone Leaf Pottery makes deliveries and also uses the services of the US Postal Service, UPS, Denver based courier service, as well as other LTL companies. See below for delivery prices.

Deliveries will be made within 3 business days or by arrangement with the teacher, pending confirmation of financial approval. All deliveries are subject to weather delays.

Inside delivery by industry standards is when the driver brings the shipped items from the truck to the entrance of your building. Generally this means the items will be brought inside the front or back door – for example, a lobby or back room. Inside delivery does not include delivery down a hallway or up stairs.

Everyday School Discounts for Items Not on bid

SLP has always offered every day discount prices for clay and glazes to schools for most other items that are not listed in the bid. This means that regardless of the volume purchased, teachers shopping for their school programs always receive the one ton price on clay, a 20% discount on liquid glazes, as well as discounts on most tools, bats, and equipment. Clay bodies and glazes are a lot like shoes. One clay or glaze may be perfect for one school or project, but may not be what another school prefers or a project needs. Our every day school discount allows teachers to select the clays and glazes that best fit their needs and still receive a substantial discount.
